

MagBox

Installation Instructions

Turn on the mag device then **press menu**, then go to **settings**.

Enter System settings and now **click on servers** and choose **Portals**.

You will see a screen with *Portal 1 name*, *portal 1 URL* & *Portal 2 name*, *Portal 2 URL*.

You only need to focus on **Portal 1**.

If you have any settings already in any of the fields you can go to each field and delete any of the data that is already in the fields

Enter Magic in “Portal 1 Name”

Enter <http://illusion-hosting.ddns.net/c/> in “Portal 1 URL”

Figure 1

Press the **OK** button for the settings to be saved.

Click the exit button to go back and you will now be asked do you want to reboot the box,
